## KITTERY LETTER

### The Public Library Is Reopened

### Cas Of Apoplexy At Kittery Point

### Much Activity In Various Local Lodges

### A Benefit Dance And One New Baby Are Reported

Kittery, Me., Jan. 7.  
The annual society meeting of the Second Christian church will be held this evening in the vestry of the church.  
Mrs. Eleanor J. Packard and Mr. and Mrs. Raymond Packard of Munson avenue left for Wareham, Mass., yesterday afternoon to attend the funeral of Mrs. Packard's daughter, Mrs. Bourne, whose death occurred suddenly on Monday.

Wednesday at the home of Mrs. Mervin G. Ford at Locke's Cove the Christian Endeavor Society business meeting was held and was well attended.

Mr. Isaac Lambert is steadily improving and his many friends are glad once more to see him at home.

Mr. Alonzo Hearn has returned to Dartmouth College after a visit with his parents in town.

The death of Mr. Frank P. Shannon, which occurred on Wednesday morning, as told in yesterday's Herald, caused much sorrow here. He leaves besides his wife, his father and two sisters to mourn his loss. Mr. Shannon had for some time been unable to work at his trade on the yard. The funeral will take place on Saturday from his late home. He was a member of Naval Lodge, Free and Accepted Masons, also of Riverside Lodge of Odd Fellows.

Among the recent publications by the McMillan Company is a book from the pen of Elizabeth D. Hanson, Ph. D., of Smith College entitled "The Friendly Craft." The author has relatives in town where she is an occasional visitor and her father was a native of Eliot.

On Friday evening in the Hayes block will be held the joint installation of the newly elected officers of Col. Mark F. Wentworth Camp, Sons of Veterans, and the Ladies' Auxiliary to same. After the business is over a turkey supper will be served.

For all the latest local news order the Herald delivered at your home for three months for one dollar.

A regular meeting of Dirigo Encampment will be held in Odd Fellows' Hall on Friday evening.

Miss Marion Chick is soon to enter the Plymouth business school in Portsmouth.

St. Aspidochelone Tribe of Red Men will meet in Grange Hall on Friday evening.

Our popular librarian, Miss Eleanor Lovell, has been busy the past few weeks renumbering and renovat-

ing the books at the public library and the library is now in good order and ready for public patronage again. Walter Fernald, who is working in North Berwick, spent Sunday in town with his family.

The benefit dance given on Wednesday evening in Wentworth Hall was well attended and proved to be a very successful affair. It is to be hoped a goodly sum was realized for the cause for which it was held.

A daughter was born to Mr. and Mrs. William Blake of Love Lane on Monday. Mother and baby are doing well.

Mr. R. Paul Philbrick of York Harbor was a visitor in town on Tuesday.

#### Kittery Point

Miss Mahel Simpson of Newfields, N. H., is a guest of Mrs. Grace Frisbee for a few days.

Lawrence Spinney and Stanley Segee passed Wednesday in Portland, Me.

Mrs. Hattie Fuller remains ill, suffering from a stroke of apoplexy.

The Odd Fellows dance, held on Tuesday night in Wentworth Hall was attended by a great many from here.

The clam flats at Bra' Boat Harbor seem to have an inexhaustible supply. Hardly a day passes but we find bushels upon bushels going out in all directions.

Hon. Horace Mitchell returned today from Augusta, where he attended the opening of the Maine legislature.

Miss Ethel Mitchell returned to Wellesley College today to resume her studies.

## MORE MONEY FOR EARTHQUAKE FUND

### Over Three Hundred Dollars From Portsmouth For Italian Charity

Joseph Sacco today reports the receipt of three more contributions to the fund raised by himself and Frank Lizio for the aid of the sufferers in the Italian earthquake region, as follows:

Mercedes Aerle, No. 682, E. O. E. \$20.00

Guy E. Corey, \$1.00

Ralph B. Flynn, 1.00

That makes the total amount thus reported \$253.60.

In addition to that the Italian residents have contributed \$77.50, which is combined with this general fund for transmission to Italy. The total of \$331.10 will be sent today in money orders of the American Express Company to the Italian branch of the Red Cross Society.

The larger proportion of the contributions from local Italians has been sent direct to members of their families by money orders and will not be reckoned in any list of charitable contributions. Mr. Sacco states that the amount is several hundred dollars to such relatives.

## ENGINEER DIED FROM INJURIES

### Nathan F. Bean Who Was Hurt In The Yard At Manchester

Nathan F. Bean of Manchester, a former engineer on the S. 30 morning train between this city and Concord, died today in the hospital at Manchester as a result of the injuries he received on Saturday last in a collision between a freight train which he was running and a shifter, which occurred in the Manchester freight yard.

The train crew and some of the switchmen were also injured but none so severely as Engineer Bean. He was a thorough railroad man and enjoyed a large acquaintance in this city where his untimely death caused much grief.

Mr. Bean at one time lived in Portsmouth.

# GOV. QUINBY INAUGURATED

## State Government Is Complete

### As Elected By The People Last November

Concord, Jan. 7.—Henry B. Quinby of Laconia was inaugurated this noon as governor of New Hampshire in the presence of a distinguished gathering in the hall of representatives at the state house.

The two bodies of the legislature met this morning and went into joint session for the purpose of the inauguration with President Harry T. Lord of the Senate presiding.

Governor Charles M. Floyd and staff escorted Mr. Quinby and party to the State House where the governor introduced the governor-elect to the legislature.

The oath of office was administered by President Lord of the Senate and a hush was upon the assembly as Mr. Quinby swore to uphold the constitution and to administer the state's affairs impartially.

The new governor then administered the oath to the members of the new council—Alonzo M. Foss of Dover, Henry W. Boutwell of Manchester, Albert Annett of Jaffrey, James G. Fellows of Pembroke and Lyford A. Merrow.

Governor Quinby then delivered his inaugural address which is given in full on another page of this paper.

Hon. George H. Moses was master of ceremonies and was assisted by Col. T. H. Dearborn of Dover, William F. Harrington and Thomas R. Varick of Manchester, W. Robert Brown of Berlin, Arthur J. Pierce of Bennington and Reginald C. Stevenson of Exeter.

#### GEORGIA GROUNDS IN CANAL

Soon Got Afloat and Does Not Seem to be Damaged

Port Said, Jan. 7.—The battleship Georgia went ashore on her way through the canal. She was re-loaded and does not appear to have been damaged. She is expected here today with the Nebraska and New Jersey.

The Rhode Island, Wisconsin and Kearsarge arrived at the Bitter Lakes last evening. They spent the night there and continued their passage through the canal today.

The other large vessels have passed the canal. The Connecticut, Kansas, Minnesota and Vermont are on the way to Sicily where they will engage in earthquake relief work.

## STEEL TRUST EXPLANATION

President Tells Senators  
That They Cannot Have It

### A LETTER TO BONAPARTE

Chief Executive Says He Talked With Frick and Gary About Absorption of Tennessee Coal and Iron Company to Prevent Failure of a Large Business Firm and Made No Objection to the Transaction

Washington, Jan. 7.—President Roosevelt informed the senate in no uncertain terms that he gave his approval to the absorption of the Tennessee Coal and Iron company by the United States Steel Corporation and that he had instructed Attorney General Bonaparte not to respond to the senate inquiry as to the reason for his failure to prosecute the steel company.

The president concludes his message with the statement that he does not conceive it "to be within the authority of the senate to give directions of this character to the head of an executive department."

The message to the senate is in response to a resolution introduced by Senator Culberson, calling on the attorney general to say whether he brought an action against the steel company, because of its acquisition of the Tennessee concern, and, if not, the reason for his non-action.

While the resolution was not directed to President Roosevelt, his attention was called to it by Bonaparte, who, after quoting the requirements of the resolution said: "As you are aware, no such proceedings have been instituted."

Commenting upon the attorney general's letter the president says: "As to the transaction in question, I was personally cognizant of and responsible for its every detail."

For the information of the senate the president transmitted a copy of a letter sent by him to the attorney general on Nov. 4, 1907, in which he says:

"Judge E. H. Cary and H. C. Frick, on behalf of the steel corporation, have just called upon me. They state that there is a certain business firm, the name of which I have not been told, but which is of real importance in New York business circles, which will undoubtedly fail this week if help is not given. Among its assets are a majority of the securities of the Tennessee Coal company."

"Application has been urgently made to the steel corporation to purchase this stock as the only means of avoiding a failure. Judge Gary and Mr. Frick informed me that as a mere business transaction they do not care to purchase the stock; that they are aware that the purchase will be used as a handle for attack upon them on the ground that they are striving to secure a monopoly of the business and prevent competition."

"But they feel that it is immensely to their interest, as to the interest of every responsible business man, to try to prevent a panic and general industrial smashup at this time and that they are willing to go into this transaction which they would not otherwise go into, because it seems the opinion of those best fitted to express judgment in New York that it will be an important factor in preventing a break that might be ruinous; and that this has been urged upon them by the combination of the most responsible bankers in New York, who are now thus engaged in endeavoring to save the situation."

"But they asserted they did not wish to do this if I stated that it ought not to be done. I answered that while, of course, I could not advise them to take the action proposed, I felt it no public duty of mine to interpose any objection."

Continuing, the president says in his message: "After sending this letter I was advised orally by the attorney general that, in his opinion, no sufficient ground existed for legal proceedings against the steel corporation and that the situation had been in no way changed by its acquisition of the Tennessee Coal and Iron company."

"I have thus given to the senate all the information in the possession of the executive departments which appears to me to be material and relevant on the subject of the resolution. I feel bound, however, to add that I have instructed the attorney general not to respond to that portion of the resolution which calls for a statement of his reason for non-action."

Washington, Jan. 7.—Chief Howard of the bureau of entomology in the department of agriculture appeared before the house committee on agriculture and asked for \$300,000 with which to fight the gypsy moth of New England.

## MISS GOULD "COMES OUT"

Daughter of Railroad Man Makes Her Debut in Society Tonight

New York, Jan. 7.—At the Hotel Plaza tonight Mrs. George Jay Gould will give a dinner dance to mark the entrance into society of her eldest daughter, Miss Marjorie Gwynne

MARJORIE GOULD.

Gould. Miss Gould is in her nineteenth year and is one of the most beautiful of this season's debutantes.

A feature of tonight's dance will be the playing of the "Marjorie Waltz," composed especially for the occasion by Naham Franko. Mrs. Gould has engaged a suite of rooms at the hotel for the dance, and they will be decorated with American Beauty roses. The dinner tables will be adorned with mauve orchids.

### EVIDENCE IS ALL IN

Fate of Mrs. Erb and Mrs. Beisel Hangs in the Balance

Media, Pa., Jan. 7.—The case of Mrs. Catherine Beisel and Mrs. M. F. Erb, charged with the murder of Captain J. C. Erb, was given to the jury last evening and after deliberating for four hours they were locked up for the night.

Counsel for the defense, in the closing address in favor of the defendants, ridiculed the commonwealth's case and said that not one scintilla of evidence had adduced to show that Mrs. Erb was in any way connected with the murder of her husband and that Mrs. Beisel, the other defendant, shot Erb that her own life and that of her sister might be spared.

District Attorney MacDade pleaded for a verdict of murder in the first degree, saying that "the murder was a diabolical plot conceived by shrewd, cunning women."

## WAR ON PROHIBITION IS BEGUN TODAY

Arguments Against Alabama Law  
in Federal Court

Montgomery, Ala., Jan. 7.—Before Judge Thomas C. Jones of the United States circuit court here today the fight against the new Alabama prohibition law was begun in the shape of arguments for a restraining order. The contest is being watched with intense interest throughout the southern states, in view of the wave of prohibition laws that has swept through those states recently.

In a petition filed in the United States circuit court on behalf of a brewing company of Evansville, Ind., it is alleged that the law is unconstitutional and will mean a loss to the company of \$125,000 a year. The law is also said to be in violation of the interstate commerce act.

### TOO GREAT A RISK

Ships Will Not Sail on the St. Lawrence During This Winter

Sidney, C. B., Jan. 7.—Winter navigation on the St. Lawrence river will not be attempted this year, shipowners having recalled several vessels which had been previously ordered to go to ports up the river.

The fact that all the signal stations in the upper gulf and along the river have been abandoned for the winter precludes any possibility of communication should a vessel meet with mishap, and the owners think the risk too great compared with the profits involved.

### Convicted of Manslaughter

Boston, Jan. 7.—James Hardy was convicted of manslaughter by a jury for causing the death of John P. Carpenter. Sentence was deferred. Hardy and Carpenter had an altercation, during which Carpenter was knocked to the ground, sustaining injuries which caused his death three days later.

### A Stop at Bitter Lakes

Port Said, Jan. 8.—Battleships Rhode Island, Wisconsin, Illinois and Kearsarge arrived at the Bitter Lakes last evening. They spent the night there and continued their passage through the canal this morning.

## AMERICA'S RELIEF SHIP

Bayern Started This Morning  
for Stricken Messina

### VAST CARGO OF SUPPLIES

Necessaries of Life For Men, Women and Children, as Well as Medical Supplies Sufficient For Establishment of Three Complete Camp Hospitals Ashore—Generosity of Americans Attracting Attention

Rome, Jan. 7.—Ambassador Griscom left here today for Messina to meet the American squadron, which is expected to arrive there tomorrow under Rear Admiral Sperry on the flagship Connecticut.

Steamer Bayern, the American relief ship, flying the Red Cross emblem, sailed for Messina this morning. The steamer, with its great cargo of supplies, will be able to take care of thousands of sufferers. There are three surgeons aboard and fifty nurses, of whom three are American and three English. Fifty-eight thousand dollars have been spent for the medical outfit, provisions and clothes for distribution ashore.

There is an immense supply of the necessities of life aboard for both men, women and children, particular attention having been paid to the selection of food for little ones.

The cargo includes 1450 blankets, 4350 underclothes, 1100 pairs of shoes, 1100 hats, 500 heavy overcoats, 250 capes, 1100 shawls, 700 suits of clothes, 300 extra trousers and a great quantity of shirts, stockings and handkerchiefs. A ton of candles and 6000 boxes of matches are among the supplies, together with all kinds of implements for digging and repairing, lanterns, buttons, sewing cotton, scissors, nails and hammers and kitchen utensils.

There are also medical supplies sufficient for the establishment of three complete camp hospitals ashore. Those in charge of the expedition have \$20,000 in small bills for careful distribution.

### Generosity Appreciated

The generosity of the American people in coming to the aid of the earthquake sufferers is the predominating feature which is now attracting attention here. The feeling of gratefulness extends from the king down to the most lowly subject. In accepting in behalf of the Italian nation the ship which the American people, through the Red Cross, fitted up to mitigate the distress of the sufferers in the south, the king said to Ambassador Griscom:

"Our people will be delighted to hear of this mark of international humanitarianism, and will follow with the keenest interest the work of mercy which will be performed by the Bayern."

### Reggio Quieting Down

Signor Bertolini, minister of public works, who is now in Reggio, has telegraphed to Premier Giolitti that the people there are beginning to be more calm, and for that reason there is no present need for steamers for the transportation of refugees. The minister adds that efforts should now be directed toward the sending of a great quantity of wood and other building material for the construction of huts along the Sicilian and Calabrian coasts.

The following list of places in Reggio province is published as having suffered the greatest damage from the earthquake: Bagnara, Canitello, Catona, Gallico, Gallina, Laganati, Melicucca, Melito, Montebello, Moti, Palmi, Pellarò, Podarmoni, San Procopio, Sante Stefano, Scilla, Semisana, Sinopoli and San Giovanni.

Word received here from Naples says that "hooligans" during the night ran through various parts of the city, crying "earthquake! earthquake!" Their cries aroused thousands of people, who rushed out of their houses, thus giving thieves an opportunity to work. The frightened population gathered in the squares and crowded the churches. Some of them took crucifixes and the images of saints and carried them through the streets in procession, amid wailing and weeping.

### What a Dream Revealed

A curious case of telepathy has occurred to a sailor on board the Italian battleship Regina Elena. He was granted leave to search for a girl in Messina to whom he was engaged to be married. After having sought for her during four days he returned to the ship exhausted and fell into a deep sleep, during which he dreamed of his fiancée saying to him, "I am alive. Come save me."

The sailor awakened, obtained fresh leave from the commander of the ship, gathered together several friends and went to the spot of which he had dreamed. The party penetrated the ruins of a house and found the girl uninjured.

### Fulton Bill Turned Down

Washington, Jan. 7.—An adverse report to the senate on Senator Fulton's bill to prohibit railroads from increasing freight and passenger rates without due notice was made by Chairman Atkins of the committee on interstate commerce.

## EDUCATORS MEET TODAY

Prominent University Men Assemble in Convention at Cornell

Ithaca, N. Y., Jan. 7.—The Association of American Universities, composed of the leading educators of the United States, began a two days' session here with an address of welcome.

JACOB G. SCHURMAN, come by President Jacob Gould Schurman of Cornell university, who is head of the association.

The program of the conference includes the presentation of papers on educational problems of importance now engaging the attention of colleges and universities.

## HEIRESS AND ATHLETE WED IN PITTSBURG

New York Oarsman Wins Richly  
Dowered Bride

Pittsburg, Jan. 7.—John F. Mulcahy, alderman and oarsman of New York city, was married to Miss Catherine Vilsack, a Pittsburg heiress worth \$2,000,000, here this morning.

Owing to the death of Mr. Vilsack within the past year few guests were invited to the wedding. The ceremony

MRS. J. F. MULCAHY.

mony was performed in St. Paul's cathedral by Bishop Canevin, a warm friend of the Vilsack family. The couple will live in New York.

Miss Vilsack first met Mr. Mulcahy at St. Louis during the Louisiana Purchase exposition, where he posed for the statue "Strength and Power" because of his magnificent physique. He is a graduate of Fordham university and has won international fame as an oarsman.

### IN RECEIVER'S HANDS

Alleged Impairment of Capital of Metropolitan Surety Company

Albany, Jan. 7.—On the recommendation of Attorney General O'Malley, following a report made by Otto Kelsey, state superintendent of insurance, Supreme Court Justice Pitts appointed John F. Yager receiver for the Metropolitan Surety company of New York. It is alleged that the company's capital is impaired to the amount of \$140,000.

The Metropolitan Surety company was organized in 1895 with a capital of \$250,000, increased later the same year to \$500,000. The company did a large business in the bonding of contractors, federal, state and municipal, the bonding of deposits and in insurance against burglary.

### CRIMINAL LIBEL CHARGED

Grand Jury Indictment Filed on Complaint of Rockefeller

New York, Jan. 7.—A grand jury indictment charging criminal libel was filed here against the publishing company which prints the New York American. The complaint is based on a newspaper article connecting Rockefeller's name with the alleged practice of poisoning a stockade near Chicago.

### Railroad Retrenchment

Moncton, N. B., Jan. 7.—Orders have been issued by the management of the Intercolonial railroad to reduce the working hours of the mechanics in the shops all over the system from ten to eight hours daily. The government is also retrenching in other departments of the railroad.

## CLERGYMAN FOULY SLAIN

Dismembered Body Is Found  
In Two Church Stoves

### MAY BE PERVERT'S WORK

Evidence That Victim, Who Was of Athletic Build, Made Terrific Struggle For His Life—Dirk Probably Served For Murder, While Hatchet Was Used to Cut Body to Pieces—No Clue to Slayer

Detroit, Jan. 7.—The dismembered body of Rev. John H. Carmichael, a Methodist minister, was found partially consumed by fire in the two heating stoves of one of his three churches near Columbus.

Clues of the murderer and his motive are difficult to obtain. The fact that several coins were found in the clothing of the dead man and in the ashes in the stoves precludes the theory of robbery, and it is not known that the murdered minister had an enemy in the world.

Rev. Carmichael had been in Michigan about ten years and for two years had been pastor of the three churches at Columbus, Adair and China. With his wife and three children he resided at Adair. Leaving home Tuesday morning he told Mrs. Carmichael that he was going to Columbus to arrange for a series of revival meetings. He waved his hand affectionately to a group of children as he drove out of the village of Adair and from that moment all trace of him is lost.

### Discovery of the Crime

Myron Brown, who lives near the scene of the tragedy, was the first to discover the crime. While he was waiting at the cross-roads to drop him to seek shelter in the church. He was surprised to find the church doors unlocked and upon opening them was terrified to see the church floor, the pews and even the communion table drenched with blood and fragments of bloody clothing scattered all around. Evidently the clergyman, who was 56 years old and of athletic build, had made a terrific struggle for his life.

The authorities on their arrival at the church found parts of the dismembered body in the two stoves located respectively at the front and rear, and discovered in one the head of what was apparently a new hatchet, the handle of which had been burned off. A dirk was also found in the church and it is believed that the dirk served for the murder, while the hatchet was used to cut the body to pieces.

The minister's horse was found tied to a tree in the village of Pine River, the dead man's overcoat being discovered in the buggy. Pine River is twenty miles from the scene of the murder.

The belief is growing that the butchering of the preacher was the act of a pervert because there is no indication of any motive for the crime aside from an overpowering lust for blood. The authorities are tracing the movements of a half-witted man who lives in the district where the crime was committed.

### BAY STATE HAS NEW HEAD

Governor Draper Inaugurated Today With Ancient Ceremonies

Boston, Jan. 7.—With all due and solemn ceremony, as befits so ancient a commonwealth as the state of Massachusetts, Eben S. Draper of Hopedale was proclaimed governor of the state and commander of its forces in the statehouse here today.

The ceremonies of inauguration were performed as usual in the presence of the members of the state legislature, convened under their title of "the great and general court" of the state. The oath of office was administered to Governor Draper and Lieutenant Governor Frothingham by President Treadway of the state senate. After Governor Draper delivered his inaugural address he retired with his suite and the convention dissolved.

### DINNER AT WHITE HOUSE

President and Mrs. Roosevelt Entertain Diplomatic Corps Tonight

Washington, Jan. 7.—Gathered around the White House board tonight will be the chiefs of the foreign embassies and the legations in this city, the occasion being the annual dinner of the president and Mrs. Roosevelt to the members of the diplomatic corps and their ladies.

Two weeks from tonight the chief justice and the associate justices of the United States supreme court will be the guests of the president at a White House dinner.

### TELEGRAPHIC BREVITIES

Reuben H. Raymond, a Boston carpenter, filed a petition in bankruptcy, giving his liabilities as \$46,049 and assets of \$140.

The United States senate ratified arbitration treaties with the Argentine Republic and Salvador.

The new general Yale University catalogue shows that the total registration, without counting the summer school students, is 3424.

## HAULS DOWN HIS FLAG

Goodrich, Navy's Ranking Admiral, Retires From Active Service

New York, Jan. 7.—Rear Admiral Caspar F. Goodrich, commandant of the New York navy yard and since the retirement of Admiral Evans the ranking rear admiral on the active list, was placed on the retired list

REAR ADMIRAL GOODRICH.

today under the age limit. Admiral Goodrich, who is recognized as one of the ablest officers in the service, when he hauled down his flag today had been in active service nearly forty-four years, during which time he held some of the most important assignments, both ashore and afloat, in the gift of the navy department. As commander of the Pacific fleet he rendered signal service to the stricken people of San Francisco at the time of the earthquake that wrecked that city.

Admiral Goodrich will probably continue in command of the navy yard until the end of President Roosevelt's administration at least.

### ATHLETES REINSTATED

Ban of Suspension For Alleged Professionalism Is Lifted

New York, Jan. 7.—Malvin W. Sheppard, Fred Bellars, George V. Boahag, Charles J. Bacon, Harry Porter and John Lee, the amateur athletes who recently were suspended by the registration committee of the A. A. U. for professionalism, were re-instated last night at a meeting of the registration committee.

Little in the way of evidence, it was said after the meeting, was adduced to support the action of the committee in suspending the men.

The charges of professionalism laid against the men were covered by an allegation that they demanded money for expenses in excess of what was necessary.

## FEARED INSANE ACTS BY ARMY OFFICER

Thornton Hains Kept Brother  
Under Constant Watch

Flushing, N. Y., Jan. 7.—For over six hours Wednesday District Attorney Darrin kept Thornton J. Hains under a searching cross-examination.

Hains testified that because of the admonitions of his parents he kept his brother under constant surveillance, fearing he might do some insane thing. Darrin led and drove by turns the defendant to admit that when Annis' boat was nearing the float he told Captain Hains that he was going home and left the captain standing on the dock, showing every evidence of mental disturbance. Hains said he had walked about thirty or forty feet toward the club house and when he turned around Captain Hains had disappeared. The shooting followed within a few seconds on the float below the dock.

### EXPLOSION AND FIRE

Factory in Which Jerseys Were Manufactured Is Destroyed

Stoughton, Mass., Jan. 7.—Fire starting from an explosion destroyed the four story factory of Charles Stretton Sons, jersey manufacturers, entailing a loss of about \$75,000. More than 100 persons will be thrown out of work as a result of the destruction of the factory.

The explosion occurred on the lower floor of the building, but what caused it is unknown. A night watchman had made his rounds of the floor but a few minutes previous to the explosion.

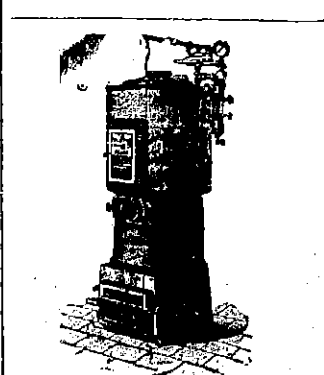

### State Armory Dedicated

Salem, Mass., Jan. 7.—The new state armory here was dedicated last night. Governor Guild and his staff were the chief guests of the second corps of cadets and Company H. The armory, which cost the state \$129,000, is of brick and cast sandstone, three stories high and the headhouse is flanked with imposing towers. The building occupies 25,000 square feet of land.

### Train Service Crippled

St. John, Jan. 7.—St. John is isolated from all Canadian Pacific railroad points and will be at least for another day as a result of a series of washouts on the Canadian Pacific railroad line. A deluge of rain undermined the track and weakened bridges in several places.

## GREETINGS, MESSRS. LEGISLATORS

Greetings to you, gentlemen of the New Hampshire legislature.

We are glad to know that you are in your places and that you are there under the understanding that you will give the people the legislative changes promised by the Republican state platform.

You have a pleasant task before you, one that will reflect credit on the state and on the party when it is accomplished.

You see the governor inaugurated today and in a few days you will have your committee lists and be ready for the actual business of the session.

Gentlemen, we have faith in you, that you will prove true to the trust which your constituents have reposed in you.

## OUR EXCHANGES

## Only a Sailor Boy

The United States Atlantic battleship fleet got into Suez on Sunday from Colombo, a distance of 3440 knots, two days ahead of its scheduled time. The run was next to the longest of the world-girdling cruise.

"Two days ahead of time!" you said like a good American when you read the press dispatch, "that's the kind of a fleet to have; they're the boys for you!" and you talked about the "record" of the fleet and "our boys" to your neighbor on train or trolley and to the folks in the office.

But what were your thoughts as you read these two lines in Sunday night's dispatches from far-off Suez? "The fleet sailed from Colombo Dec. 29. The loss of a seaman from the battleship Illinois who fell overboard and was drowned, was the only accident to mar the voyage from Colombo."

"A seaman from the battleship Illinois!" Which seaman? Who was this unfortunate hero of the American navy? What was his name? Where did he come from? From what shore did he sail?

There are hundreds of men on the battleship Illinois, which, one of the best of his life on the record-breaking run from Colombo to Suez. Must the hearts of hundreds of mothers, fathers and friends of the American sailor who lost his life be left in doubt? Sweethearts, sisters, relatives will be anxious until the name is finally announced. Had the Illinois lost one of her officers, his name would have been given to the press correspondents immediately and every newspaper on Monday morning would have told us all about him.

We venture the belief that an American "seaman" who loses his life in the service of his country should be promptly and properly identified in the sending home of the news of the event.

Peace to the soul of "a seaman"

from the battleship Illinois!—Boston Traveler.

## BIGGER THAN DREADNOUGHTS

Newest Battleship Scheme for the American Navy

Washington, Jan. 7.—If the plans of the navy department are sanctioned by congress the United States will have such a long and in naval strength that it will have every other maritime power distanced, even Great Britain.

Instead of being second to England and the United States will have the most formidable fighting ships in the world.

Plans are being made by the bureau of construction of the navy for battleships that are expected to be able to take care of themselves against three of the Dreadnought class, with the chance of winning the battle. The plans call for vessels of 25,000 tons, and carrying eight 14-inch guns each.

The fact that such a tremendous expansion of the naval program is contemplated was brought out today in testimony by Rear Admiral W. L. Capps, chief of the bureau of construction, before the senate naval committee.

These vessels would be about 7000 tons larger than the Dreadnought. Many practical questions are involved in the experiment. They must be constructed with the least possible draft, but it is believed this problem will be solved in the proposed design.

It is said that a battleship of this type, fully armed and armored, would cost about \$15,000,000.

The attitude of congress toward such ships is a question of the deepest interest. In the first place it is conceded that should this country undertake building such a squadron every other first-class naval power would have to follow suit.

It is understood that the plan is to ask congress to authorize two of these ships a year hereafter, instead of two of the type now under construction.

This would be equivalent in effective force to doubling the number of ships of the present type, but congress could permit it without actually backing down from the position it took a year ago, of giving two battleships annually.

## LITERARY

## The January Strand

The Strand Magazine this month contains an excellent variety of interesting material and is exceptionally strong in fiction. Besides a rather long instalment of Hal Caine's remarkable new serial, "The White Christ," there is a delightfully humorous story by W. W. Jacobs cause many hearty laughs. Another diverting story is Amherst Morrison's "Filer the Faithless." Horace Amblesley Vachell, Ellen Thorncroft Fowler, Mrs. Bland, and E. Nesbit also contribute some excellent stories. The articles are as diversified as ever and include such widely different subjects as "Bridge Blunders, or Hands That Went Wrong," "The World's Best Puzzles," "Some Quaker Champions," and a superbly illustrated account of Southern Dilemma, the romantic and beautiful English estate of Mrs. Ratcliff. Harry Furniss continues his "Comic Side of Crime."

## The January Century

The personal note is dominant in the January Century, with Andrew F. West's "Grover Cleveland: a Princeton Memory," the first chapters of the notable "Reminiscences of Augustus Saint-Gaudens," a new account of the romance of "Poe and Mrs. Whitman," and an instalment of Mrs. Sallie Colos Stevenson's divanous letters giving her impressions of the young Queen Victoria.

Andrew F. West's Princeton memories of Mr. Cleveland help the reader to an inspiring understanding of the motives, character and later work and wide influence of the expresident—one who "pondered much, though he said very little, regarding his religious beliefs. Yet it was always there, deep within him. He received it as he received the springtime and the sunlight or the intimacies of friendship and home."

## DROPPED DEAD AT STRATHAM

## Prince Wiggin, at Work on Flag Pole, Stricken With Heart Disease

Prince Wiggin of Hanover street

this city a line-man employed by the Western Union company, dropped dead while at work on a flag pole in Stratham on Wednesday afternoon.

Mr. Wiggin, with an assistant, Charles Brewster, had taken the job of lowering the topmast of the flag pole, and he had got it started to be lowered to the ground when it caught, and he climbed sixty feet to the cross trees to clear it. Mr. Brewster was with him, and when he got to the top he said that his breath was leaving him and started to fall.

His companion caught him and laid him across the cross tree, and when he apparently grew worse he tied a rope about him and lowered him to the ground.

As he struck the ground he fell into the arms of another man with the exclamation "I am done" and expired at once.

Assistant Medical Referee W. D. Walker was called and after looking into the case pronounced death due to heart disease.

Mr. Wiggin has been suffering and he had been warned against over-exerting himself. He leaves a wife and parents.

The body was turned over to Undertaker H. W. Nickerson and brought to this city last evening.

## HAVERHILL WINS IN ROUGH GAME

There was a rough and scrappy game of basketball at Freeman's hall on Wednesday evening when the Haverhill team defeated the Iona Club of this city by the score of 24 to 15.

Both teams were very aggressive, and from the start, the game was marked by fouls and scrappy playing in which both sides were equally at fault. A total of 33 fouls were called, but it should have been twice that number. The local team against such a team as the visitors presented played a good game and kept the score within reasonable figures.

The line up and score:

HAVERHILL	IONA
S. Follensbee, f. c.	r. b. Newick
Barryclough, r. f.	l. b. Fredrick
Betherton, c.	c. Horn
Henderson, l. b.	r. f. Pilgrim
	Jamerson
R. Follensbee, r. b.	l. b. Chase

Score—Haverhill 24, Iona's 15.

Goals from the floor, Henderson 5, Hetherman 2, S. Follensbee, R. Follensbee, Barryclough, Ham, 2, Fredrick 2. Points from fouls, Iona's 7, Haverhill 4. Referee Cragen. Time, three fifteen minute periods.

## NEAR DEATH'S DOOR

Doctor Said Mrs. Lucier's Stomach Was Worn Out, but Mi-na Cured Her

Why, oh why will people of intelligence continue to suffer with dyspepsia or distressing stomach troubles, when Mi-na, the only scientific remedy, has a record of thousands of just such cures as the following:

"I was near to death's door. The doctors said he had done all he could; that my stomach was old and worn out. I was so weak I could not walk. I took Mi-na tablets, and have been eating heartily ever since, and I am able to work like a tiger. I wish I could go and thank you myself. I send you my picture, and you can use my word and my picture, and I thank you again."—Mrs. Nelson Lucier, 112 Fisk St., Alton, Mass.

Mi-na cures dyspepsia. There isn't a particle of doubt about it; and if any of the readers of the Herald are suffering from stomach trouble of any kind, Goodwin E. Philbrick will sell you a box of Mi-na for 50 cents with an absolute guarantee of relief, or money back. In many cases one box will effect a permanent cure; in chronic conditions more is necessary. But one thing is certain: one box of Mi-na will make you feel so much better and brighter, so much more energetic, that you will not give it up till cured.

Mi-na is not a digester. Digesters never cured dyspepsia, and never will. Mi-na is a stomach strengthener that builds up the worn out, flabby inside of the stomach, and makes the stomach strong enough to perfectly digest what you eat.

During the evening music was furnished by Wesley Downing, violin, and Miss Whittier, piano.

St. John's Freemasons, No. 1, A. F. &amp; A. M., were installed on Wednesday evening with the usual ceremonies which mark the taking of offices in Masonic bodies. The installing officer was Past Worshipful Master John D. Randall, and he installed his brother as Master.

A very pretty feature of the exercises was the presentation of a handsome oil painting of Past Worshipful Master Benjamin F. Webster. The presentation was in the nature of a surprise to Mr. Webster, and this was thoroughly enjoyed by the members. There were many guests present.

During the evening an orchestra made up from the members furnished music, and a quartette consisting of G. D. Whittier, C. W. Gray, R. S. Parker and E. L. Silver rendered several selections. Following the work a banquet was served in the banquet hall.

The following were the officers installed:

William B. Randall, Worshipful Master.
Fred E. Peckham, Senior Warden.
George I. Goggin, Junior Warden.
Benjamin F. Webster, Treasurer.

## The Delight of Feeling Fresh and Fit

is one of the most desirable things in life. How fine it is to walk with head erect, to feel the blood coursing freely through the veins; to have the glow of health in one's cheeks, bright eyes and freedom from ache or pain! It is good to be alive. Given such a state of health, a man or woman can look out upon life and its work and pleasure with confidence. Work will be welcome and no longer a drudgery; while pleasures can be enjoyed to the full capacity. There can be no buoyancy, however, without health, which alas, many do not possess. Good health

## Comes After Using

Beecham's Pills, a medicine of proved worth as thousands can testify. These pills are specially prepared to counteract and remove all irregularities of the organs of assimilation and digestion—the seat of most of “the ills that flesh is heir to.” There never was a time like the present when the hurry and worry of life was so great, and it is small wonder, therefore, if beneath the stress and strain of modern conditions, the hardest-worked organs of the body are the first to get out of order. A dose of Beecham's Pills will, however, speedily tone up the system. The periodical use of this well-tried medicine will obviate sick-headache, biliousness, and other distressing results of irregular action of the stomach, bowels, liver and kidneys. If you are wise you will never be without a box of

## EVENTS OF ELIOT

### Talk Of Changing The State Road Location

### Congestion Of Lungs In Two Children In One Family

Eliot, Me., Jan. 7. The two-year-old daughter of Mr. and Mrs. Ernest O. Searle is making a good recovery from congestion

of the lungs. Her baby brother now has the same disease.

Nathan A. McKenney is to make extensive alterations on the buildings on the Joseph Stacey place on the old river road above Kenner's corner. The place was recently bought by Miss Ann Murdoch, the actress, and a friend, Miss "Phony."

John Hillhouse has a new convenience in his shop, a drag saw driven by a steam engine. He finds it an improvement over the small circular saw. Mr. Hillhouse is said to have more of that sort of appliances about the place than any other man in Eliot.

There is some agitation at South Eliot for a change in the location of

the State road. At present it starts near the Kittery line on the old post road east of Spinney's Creek and runs directly through the town lengthwise to the South Berwick line. Many people believe that it would be over a more traveled route if it entered the town via the bridge at the mouth of Spinney's Creek, and went up through Main street, South Eliot, and by the South Methodist church to the corner on Bolt Hill and the rest of the way over the present location. Another suggestion is that the State road be designated as the principal public way from Spinney's Creek bridge directly via Greenacre, then turning to the right, striking the present State road at the corner by Miss Sarah Farmer's, and thence over the present State road to the South Berwick line. Several other Maine towns have had changes of State road location and it is possible, though not certain, that one will be requested in Eliot.

The prevailing unseasonable weather is fast breaking up the ice on the ponds and streams and the ice on the Swampscott river is now nearly broken, the river being open in places. The past two days the temperature has reached unreasonable high marks, and a fog and south wind have taken away every bit of snow, thus leaving the lumbermen bereft of snow for teaming and the roads unfit for sleighing. The temperature has reached sixty degrees and the conditions are decidedly springlike. The ice crop has also received a setback by the warm weather.

### STOLE TYPEWRITERS

Burglars Took Them Out of Second Story Offices in Nashua

Nashua, Jan. 7.—It transpires that second-story workers, presumably the same gang that has been operating in Manchester, made a raid in this city last night, which bore fruit.

The victims have been keeping quiet in hopes that the police, who are hard at work on the cases, may recover some of the property stolen.

So far as reported three business offices were burglarized last night. Two were in Old Fellows' building and the other in Masonic temple.

In the Old Fellows' building the connecting offices of John P. Stark and James P. Whitney, each of whom runs an insurance and real estate business, were entered and a firewater taken from each, together with everything valuable that could be moved.

What was taken from the office in the Masonic building is not known.

A MINIATURE GREENHOUSE

Home-Made Box in Which Cuttings May Be Propagated.

For propagating cuttings, take a box 12 inches square and 5 inches deep, inside measure. A couple of drainage holes should be made in the bottom. Around the sides of the box place four 10 by 12-inch panes of glass, and fill in, first with a layer

ARRANGEMENT OF GLASS COVERING.

of drainage material, preferably unvarnished 1 inch deep, then a bit of gravel, and on top of this at least 3 inches of clean, gritty sand, not too fine. Another pane of glass, 12 by 14 inches, rests on the top, as shown in the cut.

Tender plants such as geraniums, coleus, begonias and others, root off quickly. Woody cuttings require more care. For instance, weigela, Forsythia, honeysuckle, etc., should have cuttings taken from well ripened wood in July or August. Cut to a length containing two pairs of leaves. Remove the lower pair and with a sharp blade make a clean cut right at the joint. Many woody plants will not form a callus except when cut at this point. Leave the stem projecting a little above the upper pair of leaves, so it may not dry back too far and injure the buds. Then the two leaves left should have the outer half of the blades removed.

With roses, or other shrubs where the leaves are not in pairs, the same principle holds. Choose the wood which has bloomed and cut to include four or five joints, always making the lower cut at a joint. Remove the lowest two leaves and cut back the others. They should be pressed firmly in the sand. Keep moist and given plenty of sunlight.

Great Is Catalpa.  
Arboriculture, an Indiana publication devoted to forestry, gives forty reasons why catalpa should be planted. A few of these reasons are as follows:

1. By 1925 American forests will be exterminated.
2. The only valuable tree which will mature in time.
3. Is antiseptic; requiring no chemical treatment.
4. It grows in almost any soil.
5. Is easily propagated and managed.
6. Demands no professional manipulation.
7. Most durable wood known.
8. Valuable for cross ties; have endured half a century.
9. Nothing better for telegraph poles.
10. Miles of living trees used for telegraph lines.
11. Makes magnificent veneers.
12. Superior to oak for furniture.
13. Lighter than pine.
14. Stronger than oak.
15. Tougher than hickory.
16. Freedom from warping.
17. Neither shrinks nor swells.
18. Makes best wood pulp and bookpaper.

Thrashing Out of Shock.

If thrashing can be done before the grain is damaged by rains all well and good. Even with some nice thrashing weather, under the common practice now of thrashing in sheds not many can get their work done during the most favorable time. Some must wait until the last of the thrashing season, and during this time the grain in shocks is sure to deteriorate. In some localities farmers are going back to the practice of putting all grain in starks and giving it time to go through the sweat before it is thrashed. This insures nice, bright grain, which may then be stored without any danger of heating, and the straw is much more for feeding. But if grain must be left in shock until a machine gets around to you, then by all means put up good shocks and cap them with two big sheaves. Walk around the grain field every day and replace any caps when the wind may have blown off. If any shocks are damaged better throw these out as you haul in to the thrashing machine. A few musty or smutted shocks will lower the grade of your whole crop, when you come to market it.—L. C. Brown.

Value of Alfalfa.

Alfalfa is the dairyman's friend, surely. If the figures of D. H. Ott are correct, he figures that a ton of alfalfa contains 220 pounds of digestible protein, which at six cents a pound would be worth \$13.20, and, if we put four tons to the acre, we could have a value of \$52.80. Of course, for a dairyman to realize this much from an acre of alfalfa, he must feed judiciously and in proper combination with other feeds; but if he realizes only one-half of this amount, he is getting excellent returns from his land. Wheat straw, long the standard feed for dairy cows, contains only 12.2 pounds of digestible protein in every 100 pounds.

How Is Your Digestion Today?

If it isn't right—"there's a reason." The reason is—wrong eating—undigested food. Kodol will digest the food and rest the stomach. It removes cause and "the reason."

Then you have no more indigestion. Indigestion is of course impossible when there is perfect digestion of food. And imperfect digestion of food is impossible where there is Kodol.

If you could see Kodol digest every particle of food, in test tubes, in the laboratory of the manufacturers, you would understand this better. Or, what is even more convincing, let it digest the food in your stomach, the first time you have an attack of indigestion.

Of course, you may never have indigestion. Yet most of us, at one time or another, are subject to its pains and discomforts. It is true that this is usually our own fault—but that doesn't help matters any.

Kodol will help the matter very quickly. It doesn't cure dyspepsia, understand. It isn't claimed to cure anything. The day of "cure-alls" is past. Modern medical treatment merely aims to assist Nature. Kodol is one of Nature's most invaluable assistants.

The best plan by long odds, is to keep good digestion when you have it. Many persons, however, are unable, for one reason or another to do this. Others don't care to take the trouble to do it. But the "troubles" usually come later, just the same. Then you will want to know about Kodol.

A work recently issued by the U. S. Dept. of Agriculture, says: "In eating, we are prone to let natural instinct be overruled by acquired appetite. . . . We need to observe our diet more carefully—to regulate appetite by reason."

That is the idea! Simply use reason. Don't starve yourself—eat plenty of good, wholesome nourishing food. But eat it at the proper time, and in the proper way. Starving or dieting never cured anything—or prevented anything.

Don't worry, eat what you want—Kodol will keep your stomach right.

Nature planned that we should take food to sustain life, and if the food does not undergo the essential processes of conversion into the elements required by the organs and tissues? Nature's entire scheme is frustrated, at the outset.

Here is where Kodol steps in and sets Nature's scheme right again. It does this by completely digesting all food, for a time. Nature then rests, heals and cures the digestive organs—and they resume work. After that you don't need Kodol—until you put your stomach wrong again.

Kodol Digests All you Eat

EXPERTS ADVICE OF EATING.

Author's Tell Us What Foods We Should Consume and Avoid.

Sicero told us long ago that we should eat to live, not live to eat, and Prof. Gaultier, of Paris, amplifies that wise pronouncement in the course of a very interesting article on "How We Ought to Eat." The professor is the sworn enemy of all culinary artifices, the object of which is to stimulate the appetite and induce a man to eat without hunger and drink without thirst.

These, he says, are prejudicial to the maintenance of health. When one has an appetite for plain bread, vegetables or meat unmodified by any seasoning then and their only can one be said to be really hungry. Another paternal recommendation which the professor makes is the old advice of our grandmothers, that we should always leave the table with a slight sensation of hunger not entirely appeased.

It appears that we lose every day from 50 to 100 grams of albuminoids, corresponding to 420 or 550 grams of muscular flesh or analogous tissue. An inhabitant of Paris, for instance, recuperates on the average to the extent of 102 or 103 grams a day.

As a guide to what we should eat the professor tells us that the best meat is that of animals fattened on pasture land—beef and mutton. Then comes poultry and pork fed on products of a vegetable origin, whether grain or herbaceous.

One should always avoid the flesh of animals fattened to excess on muscular flesh and also, to a certain extent, that of animals which are too young or arthritic people. It is not recommended for people with fragile, irritable, eruptive skin.

Fish, excellent in itself when it is quite fresh, is easy to digest, but it is not suitable to eczematous persons or those who have any other skin disease. Black meats or game excite the kidneys, predispose to gravel, to hepatic congestions and to arterio-sclerosis. One may live absolutely without meat; one can not do without vegetable aliments.

Eat with regularity and in accordance with the demands of hunger such dishes as have always been regarded

THE SCALE TAILED CRAB.

Naturalist Schaeffer Once Counted Them, and Found 1,802,604.

The crab known as the scale-tailed apus was believed to have become extinct in Great Britain fifty years ago, the last recorded specimens being taken in the ponds on Hampstead Heath. But now it has turned up again in some numbers in two ponds on Preston Marsh, near Southwick, in Kirkeudbrightshire. About two and a half inches long, the apus bears a very striking likeness to that remarkable creature the king crab, and this because the fore part of the body is covered by a great semicircular shield or carapace, while as in the king crab, it swims on its back. In the great number of its legs the scale-tailed apus has few rivals, while in the number of the joints which these share between them no other creature can compare. The naturalist Schaeffer once essayed the task of counting them and made the magnificent total of 1,802,604. Latreille put down the number at a round 2,000,000.

Never in the Limelight.

Jesse Grant, the third son of the great general, is a quiet man, who spends most of his time in New York and is never in the limelight. He does not work, and belongs to two or three clubs. He says he is a splendid "loafer," and if he has a good cigar he can stare at a wall two or three hours and be quite happy.

Minister's Successful Method of Gathering Congregation.

One of the most difficult propositions that a new pastor has to face, when he takes charge of a church that has fallen off in attendance and generally gone to seed, is to fill the pews and build up the membership anew. Not long ago this problem was solved in a Brooklyn church. Before taking hold the new pastor had planned a scheme which he thought would work moderately well, but which, in the end, far exceeded his hopes in its results. A few days before the eventful first Sunday he called upon a dozen of the "pillars of the church" and asked them each to call up on the telephone early on Sunday morning a half dozen at least of their friends, and not only ask them especially to come to church that morning, but also to telephone the same request to as many of their own friends as they could. They all promised to do so, and when the clergyman reached his church that Sunday he found it packed. He had prepared a rousing sermon and every one went away well satisfied.

This method of getting a congregation was continued along practically the same lines for months. As a result of the "drumming up" by telephone the size of the congregation increased enormously and the membership is greater than it ever was before. As there is not room for more in the old church they now are talking of building a new one, and the pastor's salary is \$2,000 a year bigger than it was when he took hold.

Honesty No Bar to Fortune.

It is a mistake to think that vast fortunes cannot be built up by honest methods. They can and often are. There are thousands of men among whose riches there does not mingle one particle of the sweat of unrequited toil, on whose crimson plush there is not one drop of the heart's blood of the needlewoman, whose lofty balls are the marble of industry, not the sinews and bone of the tolling masses.—Dr. Madison C. Peters.

FANCY BRICK OF CREAM.

Make a boiled custard from one pint of milk, four level tablespoons of flour, one cup of sugar, one-quarter teaspoon of salt and four egg yolks. Have the milk boiling and after adding the flour and sugar cook in a double boiler until smooth and the flour is thoroughly cooked, which will take fifteen or twenty minutes; then add the egg yolks. Let this custard cool, add one quart of cream and one cup of sugar with a tablespoon of vanilla extract.

Freeze the cream by using three parts of finely chopped ice to one of salt; pack solidly around the can. When the cream is frozen have a brick mould packed in ice, put in a layer of cream one-third of the depth of the mould. Remove a portion of the cream from the freezer to a tin pan set in ice and stir in sufficient pink coloring to give it a strawberry color or add a square of chocolate melted and diluted with a little cream.

The second layer should be of the colored cream and the last of the white or there may be one layer each of the white, pink and chocolate. Have the last layer so full that the mould overflows when the cover is pressed on and this surplus cream, by freezing will seal the contents against the salt and water surrounding the mould.

ALICE E. WHITAKER.

CHARACTER IN THE TONGUE.

Germany's Way of Sizing People Up Available Chiefly to Doctors.

Germany has taken up the pastime of reading character and telling fortunes by the tongue. Somebody has been making a study of the organ of speech and has discovered that it is full of indications.

A long tongue is said to denote openness of character, it suggests generosity and free handedness. Its possessor makes friends and enemies easily but doesn't save money.

When the tongue is long and thick the openness degenerates into a tendency to gossip and scandal. The future of the owner is beset with troubles of his own making. It also indicates flightiness and inconstancy.

Short tongues indicate secretiveness and dissimulation. Their owners make good detectives and attorneys.

The owner may acquire some money by economy and guile but has not largeness of spirit to make a great fortune. Thin pointed tongues are found in diffident people who do not succeed in life.

Short and broad ones accompany craft and falsehood; the person who has such a tongue is compelled by it to deceive and betray, whatever effort he may make to keep straight.

The vibrant, quivering tongue denotes the artistic temperament. Brilliant carmine hue is a sign of long life, pale pink tongue denotes weakness of character and delicacy of constitution.

"If it's all true," says a German newspaper, "it is lucky that it is only at the doctor and not at our friends that we stick out our tongues."

WOMEN ARE GROWING TALLER.

Will Ultimately Come to Look Down on Mere Mister Man.

Thirteen hundred and seventy-nine young women with their thirteen hundred and seventy-nine mothers have recently been the objects of the curiosity of a group of English physicists, who are endeavoring to show, from a comparison of the relative heights of women past and present, that the divinity of the future will not only exceed her sisters of the past in stature and de-

velopment, but will ultimately come to look down on Mere Mister Man in more senses than one. For the darling is growing; growing so fast that in 100 years the average woman will be taller than the average man by half a head, if not very much more.

All this has been carefully worked out, and guesswork has not been allowed to play any part in the investigations. As everybody knows, the devotion that women have displayed to outdoor sports within the past gen-

eration—dating roughly from 1876—has been responsible for the statistical fact that the girls of the day—said girls being, let us say, in the late teens—exceed their mothers by nearly three inches in height. In 1875 the girl of eighteen or nineteen stood only 5 feet 3 inches in her—well, without her shoes. To-day the succeeding charmer of the same age is at least 5 feet 5 inches. In the meantime how has man fared?

BUENOS AYRES.

It Is One of the Most Magnificent Cities in the World.

Buenos Ayres is already one of the most magnificent cities in the world. Enormous sums have been laid out in widening the streets and erecting splendid buildings. But apparently the Argentines are not yet content, for the Chamber has just authorized the raising of a new municipal loan of \$3,000,000 "for the purpose of improving and embellishing the city." This is probably due to jealousy of Rio de Janeiro, for the Brazilians have recently spent a good deal of money in beautifying their capital, and the Buenos Ayrians are determined not to be beaten in the race of luxury.—London Globe.

President Diaz of Mexico.

President Diaz of Mexico, who is past 77, literally takes upon himself a very extensive portion of the administrative work of his Government. He is an early riser, and his day is systematically arranged. Few public men are more kindly and agreeable in private life than the President of Mexico, and he has behind an aboriginal gravity of manner a very keen sense of humor. He never frets or worries over petty matters, and is always calm and in perfect mental poise in times of crisis and emergency.

Princess Fedora a Novelist.

Princess Fedora of Schleswig-Holstein, the youngest sister of the German Empress, is the author of a novel recently published in Germany entitled, "Hahn Berta." She has a romantic history, having declined all offers of marriage since the tragic death of her fiancé, Duke Frederick of Mecklenburg-Schwerin, who, while in command of a torpedo boat, perished in the Baltic with the entire crew.

New Opera by Verdi.

A complete score of a new opera by Verdi, the existence of which has hitherto been unknown, has been discovered in Paris in an old chest full of manuscripts and other papers which formerly belonged to the famous musician. It was the composition of this opera which occupied some of the latter months of Verdi's life.

Greece Rich in Ore.

During the year 1906, 89 mining concessions were granted by the Greek Government. A glance at the list of these concessions reveals the richness and variety of the mineral deposits of Greece, as they include copper, lead, zinc, iron, manganese, cobalt, nickel, coal, antimony, iron pyrites gypsum and asbestos.

Knew Nothing of Civilization.

Knud Rasmussen of Copenhagen who has been studying ethnology at Umanak, North Greenland, has started for Smiths Sound to find an Eskimo tribe which is reputed to have never come in contact with civilization. His aim is eventually to reach the Canadian mainland some time in 1909.

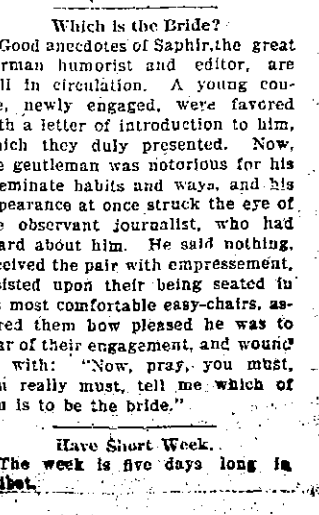

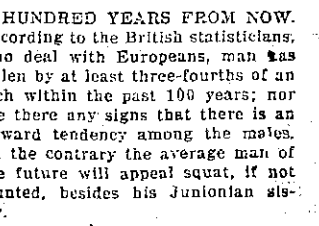

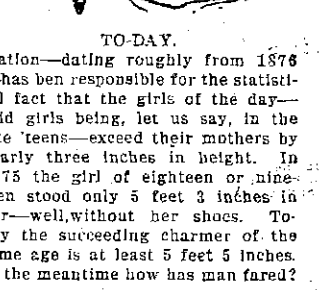

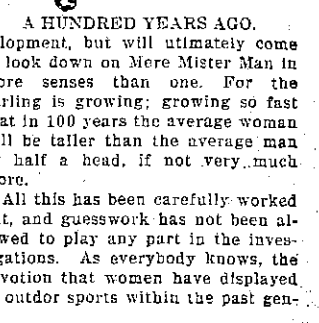

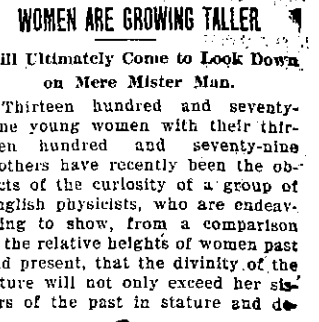

Official Astrologers.

The Empress of China, King Menelik of Abyssinia, the Amir of Afghanistan, the Sultans of Morocco and Zanzibar and the Khedive of Egypt all maintain official astrologers.

Her face was not so pretty, Her form was nothing great, And she was rather shy on sense; But oh, her figure was immense! So men came round to wait Upon this girl of beauty shy Whose charms seemed quite a blank Attracted from all quarters by Her figure in the bank.

## DEATH OF FREDERICK ODLIN

Former City Marshal of Lewiston and Later State Detective

Lewiston, Me., Jan. 7.—Frederick L. Odlin, a former city marshal of this city and a state detective for many years, died last night. Although he had been in poor health for over a year he was not taken critically ill until Tuesday. Mr. Odlin was born in Pittsfield, Me., and was fifty-nine years of age. He was a thirty-second degree Mason and last year was illustrious potentate of Kora Temple, Mystic Shrine. He had also held high offices in the Elks and Eagles.

## WILL VOTE SOME TIME

Mr. and Mrs. F. J. Obrey of No. 31 Thornton street are rejoicing over the birth of a son.

## INSTALLATION BY THE EAGLES

## Pleasing Entertainment Held After The Ceremonies

Mercedes Aerle, Fraternal Order of Eagles, installed the officers for the year 1909 on Wednesday. The work was in the hands of Grand State President John E. Webb, assisted by H. B. Dow as grand conductor.

The officers are as follows: Worthy president, Thomas Brown. Worthy vice president, Alfred McCourt.

Worthy treasurer, Fred P. Obrey. Worthy secretary, J. H. Horan. Worthy inner guard, Frank W. Trueman.

Worthy outside guard, M. J. Lynch.

Worthy board of directors, H. B. Dow, John Shaughnessy, Andrew Barrett.

After the installation the remainder of the evening was given to an entertainment of rare merit and which proved not only a treat but a genuine surprise to the large gathering of members. The talent appeared in the following order: Comic selection, "Let It Along."

N. J. Caisse

Song, "Over a Jersey Side."

P. J. Couley

Recitation, "Mine for the Water Wagon."

J. M. Buckley

Song, "It Pays to Advertise."

Thomas Brown

Piano selection, "Hearts and Flow-ers."

Edward Lamonde

Recitation, "The Hallroom Boys' Revenge."

B. F. Mugridge, Jr.

Song, "Nothing Down."

Max Goodman

Recitation, "Get Your Stew Meat Here."

B. F. Mugridge, Jr.

Song, "My Dogs Don't Bite."

John Cambers

Card manipulations, Anthony Hall

Refreshments were served and from a social standpoint the aerle

members say it was a record breaker eclipsing anything in the history of the order.

## GOOD SHOWING IN CITY FINANCES

## A Pleasing Statement Is Soon To Be Issued

The record of the city government for 1908 shows that the funds of the several departments have been well guarded and a balance is found in the school, police and fire departments, in fact in every department but that of streets which required a few hundred dollars transfer. A statement relative to the standing of the city will shortly be issued which promises interesting reading for the citizens of Portsmouth, especially in the matter of the last appropriations made and the work as a whole by the city fathers of last year.

## THE NAVY YARDS HERE AND AWAY

## Clerks Have a Busy Meeting

Portsmouth Branch, No. 3, National Association of United States Civil Service Employees at Navy Yards and Stations, last night held their monthly business meeting which was well attended. Considerable business was brought before the meeting and attended to, several new officers elected and five applications for membership received.

A set of resolutions were adopted to be forwarded to the New York branch commending them for their recent efforts in behalf of the association which brought such good results.

After the meeting the members adjourned to the anteroom where refreshments were found and enjoyed by all present. All members should make an effort to be present at the next meeting as the entertainment committee has promised to have something doing.

## Seventy Dollars Collected

The fund collected among the officers of the yard and those of the ships for the Italian earthquake sufferers amounted to \$79.00.

## Called Out a Crowd

The bowling match between the yard clerks and the Portsmouth Catholic Union attracted a lot of spectators on Wednesday evening.

## FLOUR STOLEN IN TRANSIT

## Joseph Sumski Is Arrested For Having It In His Cellar

About a month ago the local officials of the Boston and Maine railroad reported to the police that the freight cars of the company were being robbed of flour and that seven barrels were missing on the day the fact was discovered. The same day two barrels were found floating in the North Mill Pond and the police immediately went after the case. Today they located the alleged remainder of the barrels in the cellar of Joseph Sumski at the North End and placed Sumski under arrest. The flour was part of a lot consigned to the firm of Cater & Benfield and was identified today as

such. It is believed that the flour was taken away from the railroad in a boat and while the thieves were rowing in the pond the two barrels found floating got away from them in their escape.

Sumski denies any knowledge of the stealing and says he purchased the flour from a grocer. It was only last Monday he figured in police court and the police are convinced that Sumski is mixed up in this deal and that others are connected with the freight grab which the railroad authorities and police are going to clear up.

Sumski will be heard in police court on Friday.

when a good delegation from the clerical force and workmen gathered at Mow's alleys to watch the first game of a series. The clerks were victorious.

## Officers Looking Over Boat Building Plant

Capt. A. V. Zane and Naval Constructor John G. Tawressey visited Amesbury today, where they inspected the plant of the Atlantic Boat Building Company.

## Back From Sick Leave

C. Clifford Machmore, blacksmith in the department of construction and repair, has returned from a sick furlough.

## Lost in the Fog

The skipper of the Yeast Cake and crew who got lost in the fog on Wednesday say the maneuvering on the river was not all caused by fog but was due to the testing out of the new fog signals.

## Sent to the Barracks

First Sergeant Thomas West, U. S. M. C., has been transferred from the Southern to the yard barracks.

## Commander Marsh Here

Commander Charles C. Marsh, who has been under court martial proceedings for the grounding of the U. S. S. Yankee, was a visitor at the yard on Wednesday. He will learn of the official action of the navy department as to his case on Monday next at Boston.

## Carpenter Fletcher at the Helm

Chief Carpenter Joseph B. Fletcher is in charge of the construction and repair department today during the absence of Constructor Tawressey in Amesbury.

## From League Island

Fourteen prisoners arrived from League Island yard today for the Southern.

## A NEW TEAM ORGANIZED

A bowling team is organizing at the railroad roundhouse and will begin at once sending the balls down the alley. Dick Pray, an expert in sporting circles, will captain the outfit and says those who follow the railroad bowlers will have to go some.

## STREET GATES CHANGED

The Boston and Maine railroad is changing the location of the gates at the Market street crossing on account of the new tracks leading to the docks of the Portsmouth Coal Company.

## PERSONALS

Mr. and Mrs. Richard Raleigh are visiting in Dedham.

Mr. and Mrs. Fred Sanborn are passing the day at Brentwood.

The many friends of Mrs. Frank Amee are pained to hear that she is sick at her home on Hill street.

Mrs. Annie Doolan of Hill street has gone to New York and will return with her son James, who has been ill at Mamaroneck.

Mrs. Andrew P. Wendell left on Wednesday for a visit with her daughter, Mrs. Herbert P. Patterson, in Lawrence, Mass.

Miss Marion Roby of Nashua is visiting Dr. and Mrs. F. S. Towle on State street, who have just returned from the South.

Jesse O. White of New Castle, grand chancellor, will go to Farmington next Tuesday to install the officers of the lodge of Knights of Pythias in that town.

Harry Brightman of Cambridge, for the past nine months druggist at the pharmacy of Benjamin Green, has gone to St. Augustine, Fla., for the benefit of his health.

## EAT AND GET THIN

This is turning an old phrase face about but modern methods of reducing fat have made this revision possible.

If you are overfat and also averse to physical exertion and likewise fond of the table and still want to reduce your excess flesh several pounds, do this: Go to your druggist (or write the Marmola Company, Detroit, Mich.) and give him (or send them) 75 cents. For this modest amount of money the druggist will put you in the way of satisfying your ambition for a nice, trim, slim figure. He will hand you a large case of Marmola Prescription Tablets (compounded in accordance with the famous Marmola Prescription), one of which you must take after each meal and at bedtime until you begin to lose fat at the rate of 12 to 16 ounces a day. That is all. Just go on eating what you like, leave exercising to the athletes, but take your little tablet faithfully and without a doubt that flabby flesh will quickly take unto itself wings, leaving behind it your natural self, neatly clothed in firm flesh and trim muscles.

## OBITUARY

Cornelius Wetherell died this morning at the home of his sister, Mrs. Sarah Gordon, on Cornwell street. He leaves five brothers and one sister.

## HODGDON—PIERCE

Clarence G. Hodgdon and Mrs. Linnie L. Pierce, both of Boothbay, Me., were married at City Hall on Wednesday by Lamont Hilton, Esq. The groom is an ice dealer.

## NAVY-YARD CLERKS WIN

## First in a Series of Bowling Matches at Arcade Alleys

The Navy Yard Clerks' bowling team defeated the team from the Catholic Union on Wednesday evening in the first of a series of three games at the Arcade Alleys. The Union team seemed to be off color, and while the Clerks had the better of the game, neither were they up to their usual standard.

Kelley was high man for the winning team, having a very creditable score. Capstick led the Union team. The scores:

NAVY YARD CLERKS			
Boyd	86	90	78-254
Planagan	72	53	73-213
Robinson	83	85	66-234

## THE GRAFFORT CLUB ENTERTAINS

Reciprocity Day was observed by the Graffort Club on Wednesday afternoon at Association Hall, and it was very successful both from the standpoint of attendance and results.

Miss De Merritt of Dover gave an interesting talk on "Library Extension," and Mrs. Burlingame of Exeter had an exceptionally interesting talk on "Child Labor." Miss Odell of Greenland spoke on "Civic Improvement," and Mrs. Clark of Worcester had an able address on "Forestry."

Miss Minnie Dondoro gave a pleasing contralto solo, "Last Night the Nightingale Woke Me," and received a hearty encore.

All of the subjects are of great importance to the State, and should be carefully considered by outsiders, as well as club members. Following the program refreshments consisting of oyster patties, tea and chocolate, fancy crackers and candy, were served by the younger members of the club.

## CARD OF THANKS

We wish to publicly express our thanks to the multitude of friends for their helpfulness at the time of our recent bereavement of husband and father, and for the flowers and many other evidences of regard for our departed loved one at the funeral.

Mrs. Charles P. Abbott and Children.

## FUNERAL OF MR. CHAPMAN

The funeral of Earl K. Chapman was held at two o'clock this afternoon from the home on Islington street, attended by Rev. Lucius H. Thayer.

The burial was in the South cemetery under direction of O. W. Ham.

Concord will as usual gather in the shovels and her citizens will spend some of it—some time.
